CLIENT COMFORT BEYOND COMPARE

Nothing helps the profitability of a spa more than repeat business. And nothing inspires your spa guest more than a luxurious experience of pampering and relaxation. LEC helps to accomplish this with plush features, such as our Strata™ memory foam cushioning system the Caress™ self-adjusting platform with Strata™ FacePillow. Add features such as the Conforma™ Pregnancy top, Bluetooth® speakers or PivotPerfect™ side arms for the ultimate, unforgettable experience that will bring your clients back again and again.

ZERO CARBON FOOTPRINT

L·E·C's sustainable manufacturing standards call out managed forest hardwoods, water-based lacquers and glues, eco-friendly Natursoft™ upholstery and CFC-free foams. L·E·C was the first spa treatment table manufacturer to achieve certification from the Forest Stewardship Council (FSC). Every year, we make sizeable donations to local, national and global conservation and relief programs, with our multiple plant-a-tree partnerships, completely offsetting our carbon footprint. In fact, the Green Spa Network voted Living Earth Crafts "Sustainable Manufacturer of the Year" in 2015.

EXCEPTIONAL CUSTOMER SERVICE

Living Earth Crafts tables arrive on time and in pristine condition. Clients can expect years of trouble-free use, but should the need ever arise, our customer service team is ready to assist in any way possible. We proudly offer the industry's best, worldwide treatment table warranty, as we are confident that our products will perform to your highest expectations.

†STUDIO

As the global leader in massage and spa equipment manufacturing, Living Earth Crafts has ventured beyond the standards that built our reputation for quality and craftsmanship to offer you something truly extraordinary. By reimagining the way products are designed, desired, and ultimately utilized, we have created a limited line of spa furniture meant to provide the world's most distinguished spas with our sleekest, most avant-garde design concepts.
