CUSTOMER SERVICE AND MACHINE MAINTENANCE MADE EASIER

Imagine: your center is full and your customers are having fun. But suddenly a machine has a problem, your staff is busy and it takes too long to notify the technician.

Sometimes, that's all it takes for your reputation to take a hit and lose customers. But it doesn't have to be that way. Not with the Trouble Call System (TCS) from QubicaAMF.

WE WERE FIRST. AND OURS IS STILL THE VERY BEST

Introduced in 2003, and constantly refined since, TCS is bowling's first and only automated solution for customer service, technician support and management reporting. Infused with innovative QubicaAMF engineering, it's designed to make bowling life easier for everyone.

EASIER FOR CUSTOMERS TO ENJOY THE GAME

TCS reduces **their frustration**, instantly advising them if a machine problem happens, and keeping them posted so they can restart the second the technician is done.

Now with HD renewed graphics!

Automatic reporting provides live updates through animated excitors on the overhead monitors. And, they can **report a problem right from the console.**

ERRORS ENTER THE SYSTEM AND SIMULTANEOUSLY THE SYSTEM NOTIFIES TCS

TCS

The TCS contacts the mechanic via his wireless handset

Front Desk is advised that an error has been detected on a certain lane.

Via the scorer monitors, customers are advised that an error has been detected.

All details about the detected error, lane, source, and total downtime are saved in the TCS database

Customers are advised that the mechanic is working on the issue.

Customers are advised that it's okay to continue.

EASIER FOR TECHNICIANS TO DO THEIR JOB

TCS automatically informs staff right when a problem occurs and keeps them informed until it's solved, allowing them to focus on solutions.

Mobile access with QPad. Get full access to TCS including all machine performance information; camera, monitor and pinspotter controls; plus all technical settings—at your fingertips—without the need to run back and forth to the front desk. Notifications and call management are available from the wireless handset.

With **full control and communication**, they can acknowledge the call directly from their handset, even control basic functions such as recycling the machine.

Improved safety. To help protect the technician, TCS promptly advises bowlers when they have to stop, so they won't throw the ball while the machine is being repaired.

Works with every machine. TCS can be installed with machines supported by QubicaAMF scoring systems, including QubicaAMF/Qubica/AMF, Brunswick, Mendes, along with several others—even in mixed installations.

EASIER FOR MANAGERS TO OVERSEE OPERATIONS

TCS automatically keeps a detailed trouble call history with no extra effort required by you or your staff, allowing full visibility into machine performance.

Detailed and reliable. TCS keeps track of every issue that occurred—those reported directly by the machine, or manually entered by the front desk, technician or bowlers.

Complete statistics let you check all relevant metrics, observe trends, and identify issues before they become problems. You also have access to data for evaluating technician response times and performance.

We've spoken with hundreds of technicians, proprietors and investors about today's bowling business and identified the most prevalent market problems around pinspotters—from challenges related to training staff to increasing costs of older machines to the importance of a better experience to keep players coming back.

In response, we've developed the XLi EDGE. The most advanced pinspotter ever and the only pinspotter designed to make your business easier.

EASIER FOR YOU

Because it's the most cost effective pinspotter to operate, so you have more money to focus on marketing your business or add to your bottom line.

- **Exclusive Patented EDGE Performance Lift and Cam**
Delivers the best Frames Per Stop (FPS) performance in the industry, requiring less staff to operate, so you save money.

Conserves electricity, keeping your operating costs down so you save money.
- **Exclusive Fewer Wear Parts** You spend less annually on replacement parts to maintain the machines.

“

The XLi EDGE pinspotters are much more reliable...we no longer use a contract mechanic, and have saved about \$15,000 a year in parts and out of pocket labor expenses.”

Billy Frederick, Managing Partner, Chalet Bowl & 26th St. Café Tacoma, Washington

“

With the EDGE Performance Lift the access to the pinspotter is very open and it's a lot more comfortable to work on the machine.”

Stan Anderson, Head Technician, Mountain Run Bowling Center Culpeper, Virginia

The XLi EDGE is open and easy to work on making it efficient for technicians to do their job.
- **Exclusive Keeps Staff Informed¹**
Staff is automatically notified of any interruption in bowler play and can respond quickly. With system generated reporting, you have accurate data to improve maintenance effectiveness and lower operating costs.

EASIER FOR YOUR CUSTOMERS

Because they have a better experience in your center and are more likely to return.

- **Exclusive CenterPunch Deck Lighting System***
Driven by Conqueror Pro and integrated with BES X, CenterPunch deck lighting illuminates the pins, enabling dazzling light shows that will excite and engage your bowlers.
- **Exclusive Quietest Operation**

INTELLIGENCE FOR A BETTER EXPERIENCE

By choosing the Harmony Ball Return for your center you are creating a better environment for customers and your staff. Here is why:

Exclusive Hand Intrusion Sensor Stops all moving parts in the ball return as soon as a foreign object, such as a hand, enters the ball exit area from the outside, and sounds a warning beeper. This use of technology helps reduce the chance of hand injury to a bowler, particularly children; in addition, the warning beep is a signal to the center staff that something is wrong.

Gentle Ball Exit Speed Balls exit the lift slower and with less force than all other ball lifts on the market. This reduces the hazard of bowler's fingers getting pinched by a ball exiting the lift and striking the ball on the rack that is being picked up by a bowler.

Drive System Moving Parts Fully Guarded The moving parts of the drive system are guarded to protect staff if they need to work on the lift.

SmartPath Ball Distribution Patented design ensures balls are distributed equally on either side of the ball rack, preventing pile-ups.

EASY TO OPERATE

With the Harmony Ball Return anyone on your staff can perform maintenance when needed.

Above-Lane Electronics

All electronics are above the lane and easily accessible. This makes it quick and easy for any of your staff to work on the lift.

Quick-Remove Hood Cover

The ball return hood cover is designed for quick removal, making it quick and easy for the technician to remove the hood and access the ball return.

MOST ENERGY EFFICIENT BALL RETURN AVAILABLE

The Harmony ball return uses less electricity than any other ball return. Here is why:

Exclusive Smart Auto-Start Technology

This intelligent technology enables the ball return to run only when needed. This saves power and prolongs the life of the drive system. Electrical consumption is 70% lower on average compared to other ball returns.

PINNACLE PINS

As the name implies, Pinnacle is our top-of-the-line pin, made with only straight-grain white maple, and inspired by a 30-year legacy of success with our best-selling AMFlite II series.

They feature 50% more Surlyn in the ball impact area to reduce core compression and extend pin life, plus a specially formulated lock-in base to reduce sliding. They come with a two-year or 10,000-game warranty, assuring you of a solid long-term investment.

TROPHY PINS

Available in clear or colored styles, trophy pins have a far greater 'wow' factor than more traditional prizes, are an excellent promotional opportunity when customized with your center name, a sponsor's name or corporate logo, and make a fascinating conversation piece.

Be sure to give the award that keeps them talking about your place long after they roll the last ball.

BIRTHDAY PINS

Birthday bowling is one of the fastest growing promotions in the industry. So why not present a great keepsake for the guest of honor, and a terrific new revenue stream for your business? Choose from an entry-level pin, multi-colored logo pin, or QubicaAMF Themed Birthday Pins tied to the BES X Bowler Entertainment System environments—Oceano, Prehistorica or Fairy Tales.

Birthday Pins are made from a refurbished core and recoated in Surlyn. We can even customize the reverse side with your center logo to remind bowlers to come back to your center again!
