TO BE THE BEST
FOR THE WORLD,
CREATORS OF GOOD LIFE FOR ALL,
THROUGH BEAUTY,
ETHICS AND SUSTAINABILITY

Davines Group

[comfort zone]

SKIN SCIENCE SOUL

OUR MISSION

Our mission is to cultivate beauty within and around us
and to promote a conscious lifestyle.

We improve skin, body and soul through sustainable,
science-based solutions and unique experiences,
while caring for the people and the planet.

SKIN IS OUR FOCUS

Our constant research aims
to understand the skin
and how to best guarantee
its beauty and vitality.

SCIENCE IS OUR GUIDE

The most advanced medical and scientific studies
guide us in our continuous improvement and pursuit of excellence.

SOUL IS OUR CARE FOR THE PEOPLE AND THE WORLD AROUND US

We deal with people, not just with their skin.
Our higher purpose is to help and encourage them
to take care of themselves in a sustainable, soulful way..

OUR HISTORY, OUR FUTURE

[comfort zone] was conceived in Parma, Italy, in 1996 as the skincare division of Davines Group,
a family-owned company still in the caring hands of the Bollati Family.

The evolution of [comfort zone] is being shaped by our President, Dr. Davide Bollati:
what began as a research laboratory and manufacturing site for the development of high-quality formulas
has grown into an internationally awarded brand, distributed worldwide.

The Davines Village, our new headquarters, is the House of Sustainability
and fully expresses our vision and values.

Since 2016, we are a B Corporation, a new type of company
that voluntarily respects the highest standards of vision, responsibility and transparency,
and enacts innovations improving the life of the community and the environment.

THE JOY OF BEAUTY

Together with our professional partners, we want to invite our clients to appreciate
and protect the beauty that characterises and surrounds them as the expression and source of joy of life.

CONSCIOUS SKIN SCIENCE™

Every choice in our life has an impact on our skin and the world around us. Our conscious skin care features science-based, sustainable, soulful solutions to deliver visible results on the skin and a deep sense of wellbeing.

We select the finest natural-origin ingredients, the most advanced high-tech molecules and carrier systems. We choose not to use animal derivatives, silicones, mineral oils, parabens, artificial colors and any other ingredient which might be aggressive for the skin or the planet. Our formulas are tested by dermatologists and their efficacy is clinically proven. They are suitable for vegans.

Our products are made in Italy at the Davines Village, a carbon neutral factory that uses renewable energy. Our packaging is sustainable: we use recycled paper and recyclable materials and we offset the carbon emissions thanks to EthioTrees, a proprietary reforestation project in Ethiopia.
